

**Vermont Work Plan  
FY2007**

TTA Ticket Number:	3925
NRC:	NRC for Child Protective Services
State:	Vermont
Contact Person:	Ober, Fred
Initial Contact Date:	11/02/2006
TA Lead Staff:	Stone, Anna
Tribes Served:	
Service Request:	We are requesting technical assistance to provide on-site methamphetamine training primarily for child protection staff and law enforcement, as well as for prosecutors, mental health and substance abuse providers, and medical professionals. We would like to have at least one day of general training around the direct and indirect effects of caretaker methamphetamine use and production on children, so our social workers and law enforcement personnel are better equipped to address children's safety when they encounter methamphetamine use or manufacturing in a child's home. We would like to have an additional one to two days of training for a smaller group that would then comprise the Vermont Drug Endangered Children Team (DEC team). The team will be comprised of a representative from law enforcement, child protection, mental health/substance abuse, prosecution, and medicine. The goal of this additional training would be to provide more information to the team members, and assist with organizing the team. (DEC teams were discussed at length at the Methamphetamine conference in May 2006 and there were many skilled presenters at that conference that would be ideal to provide this sort of training.)
Reason for Request:	We are requesting technical assistance to provide on-site methamphetamine training primarily for child protection staff and law enforcement, as well as for prosecutors, mental health and substance abuse providers, and medical professionals.
Timeframe:	FY2007
RO Specialist Informed:	Yes
Cooperating NRCs:
